

Pack-to School is an annual program sponsored by the board of Villa Therese Clinic providing approximately 150 school age children with a new backpack filled with essential school supplies. The program's goal is to build self-esteem by offering encouragement to children who are served by the Clinic as they begin a brand new year of learning, while providing assistance to parents at a time of year that can be very expensive for families.

Generous donors including local faith communities and businesses, along with grants and individual sponsorships, make this program possible. Please consider sponsoring a child! A donation of \$100 will help to insure that a child in need will be ready for school.
